

Introduction to the week

Fabrice.Kordon@lip6.fr

What you already know

Implement «single view» applications

- Even games
- Even ones using «cool stuff»

Handling of complex views

- Differentiated behavior (small/large devices)
- Nice seat effects

Delegation

- Intense practice with some complex protocols

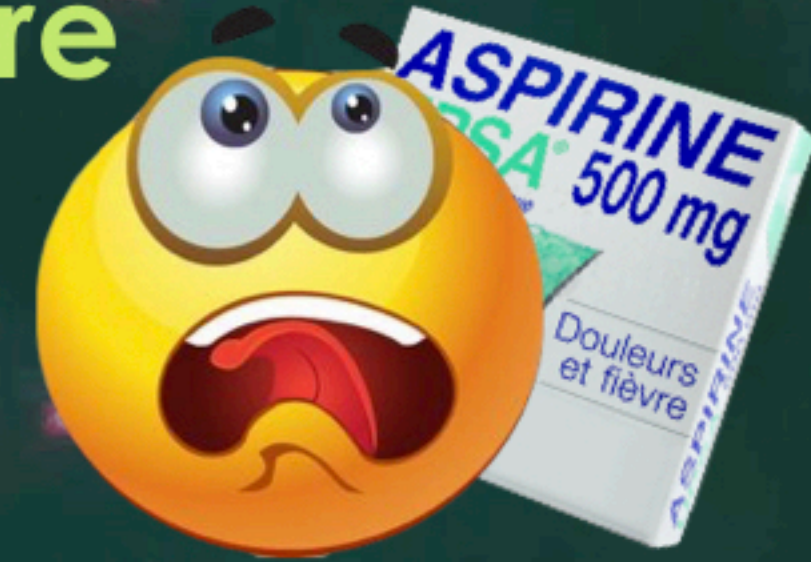

Cool stuff

- Geolocation & Maps
- Multilingualism
- Taking or selecting pictures
- Managing contacts

What's next this week

Rediscover the Application's structure

- It is more complex than previously presented
- Get involved with the AppDelegate file

Handling hierarchies of views

- UITableViewController
- UINavigationController

Let hierarchies of views coexist

- UITabBarController
- UISplitViewController
