

Introduction to the week

Fabrice.Kordon@lip6.fr

What you already know

Implement applications

- Even games or complex applications
 - ▶ Geolocation, multilingualism, cameras/photo library contact book...

Handling views

- MVC, storyboard, programmatic, constraints with VFL, orientation, etc
- Hierarchies of views, sophisticated view arrangement

Delegation

- You did a bit of practice

A few nice gadgets

- Device sensors
- Touch / multi-touch
- Sounds, music & access to the music library

What's next this week

Notification (full schema)

- Local (between apps)
- User notification
 - ▶ Push Notification not presented

Video

- A bit of it for the fun...

Networking

- Accès + XML parsing
 - ▶ A bit of JSON too
- Bonjour (0-conf)

Data persistency

- Preferences of an App
- Storage and Serialisation
